Customer Reviews

I purchased the three Chima books for my grandson, along with the DS Nintendo game cartridge for his hand-held device, which he had asked for when his 8th birthday rolled around. Guess what his favorite present was? Yep.... the books! He loved them, and these books featuring the characters from the hand-held game were perfect for him. In this day and age of technology and children being fascinated with anything which has buttons, don't underestimate the power of books and reading!

My order arrived fast & packaged wellI bought this book for my nephew that loves Lego & The Legend books, It helps him with his reading, he so enjoys the books, He can't wait each month to see what happens in the book adventures, Glad to find these books from & other sellers. Tku :o) Trish

Awful product....very bad sound. I bought these same headphones a couple years ago and the sound was good but these ones a some kind of imitation knock off. Don't buy. Sound is muffled

What can I say? My son likes it. Obviously I didn't read it, but asked his opinion and he said the book deserved five stars so... five stars it is!

My 6 year old grandson got this from us for Christmas and he loves this book. It's a perfect companion to all his Chima Legos.

This was for my grandchild's Birthday. He did not have any of the Gorilla books and was on his must have list.

My son who is learning to read loves this and wants to read because it's a story he is interested in.
