Peppa Goes Swimming (Peppa Pig)

Synopsis

An all-new storybook featuring Peppa -- a lovable, slightly bossy little piggy! Peppa and George are going swimming, but George is a bit scared. How will Mummy and Daddy pig ever convince him to get in the pool?

Age Range: 3 - 5 years

Grade Level: Preschool - Kindergarten

Customer Reviews

âââââA VERY SIMPLE BOOKâââââMy kids love the entire Peppa franchise. But this book is on the lower end of the scale. It's just not as entertaining as the rest. Peppa and his family go to the pool....and go swimming. That's pretty much it. There is no real story to speak of. It's a decent bedtime book because it's very soothing and calming. It's also got value as a book to let a kid read by herself because it's simple and they can get the entire story just from the pictures. (And anything that makes a kid sit and read by themselves and be interested in it is a very good thing) The coloring is vibrant. I'll give it that. The coloring of the illustrations captured my 4 year old's attention. But the other Peppa books are better if you're looking to buy only 1 or 2.

We love Peppa Pig in our house and have numerous books based on the show that we love. This one is just alright. The storyline from the show doesn't translate well into a book in this instance and

I was a little disappointed about the quality of the paper of this book. The illustrations are nice though and my daughter seems to enjoy it. But if I would have seen this in person I would have probably passed on purchasing it. There are better Peppa books out there.

We love so many of the books in this series, but this one is just meh. There's so much more interesting stuff to say about learning to swim, but this just kind of meanders without going anywhere interesting or meaningful.

Length: 0:38 Mins

My 2 1/2 year old daughter loves anything to do with Peppa Pig. I have been slowly adding some of these Peppa books to her collection, as she loves to be read to. She also loves swimming so I knew she would enjoy this one. She knows all the characters, and loves pointing them all out. This book is cute and colorful, however I personally thought it was lacking a little bit as far as the variety of pictures. Each page is pretty much the same with the characters in the pool, with some slight variations. However, as you can tell from my video this book has been well loved in just the couple months that we have had it. My daughter wants us to read it to her over and over, and she carries it around with her all the time looking at the pictures. So although the pictures are a bit repetitive to me, my daughter loves it and that is what matters most. There are 23 pages total not including the cover page, and there are just the right amount of words on the pages to tell a nice story without losing her attention. Overall I like this book, it just isn't my personal favorite in the series. I still would recommend it to anyone with a child who is a Peppa fan. This was a personal purchase bought at the full retail price. I am reviewing it solely to share my experience with other potential buyers.

Loved this book my 4 year old is a big fan and we read at bedtime everyday. She made me read this several times each night for the last 4 days. Lets just say BIG HIT. Illustrations were cute as was the story.

Both my kids love Peppa, the way these books are written are the same as the TV episodes so if you haven't watched the episodes on TV then the stories may seem incomplete or lacking in detail. We have watched all Peppa pig episodes at least 5 times! So these books are simply an extension of what the kids watch on TV. They enjoy having me read it to them during bed time and looking at the pictures and pointing out their favorite characters. The stickers in the 'Dentist Trip' were really

nice. Great books!

My niece loves Peppa Pig and loves to swim, so got this fun little book for her to enjoy over the summer. Peppa and George look pretty cute swimming. Like the arm floaters. These are upbeat little books which go with the TV series. The price is great on these books, too. A lot of bang for the buck.

My daughter is a huge Peppa Pig fan. We've seen this episode so she was familiar with the story. It follows the typical Peppa Pig episode format and isn't a GREAT story but it'll keep your preschooler entertained.
