Piano Pieces For Children 2 (EFS No. 250)

Synopsis

(Music Sales America). A classic repertoire book for young pianists, which provides a wealth of piano favorites. As with Volume One, the scope of the material included is broad and thorough, ranging from the works of the great masters, to the folk tunes and dances of many lands. This collection encompasses grades one through to four.

Age Range: 6 - 9 years

Grade Level: 1 - 4

Customer Reviews

This book is quite good. The amount of repertoire is great. I gave it 4 stars instead of 5 because I was hoping it would have more children's songs that were suited for today's 21st Century youth. Many of the songs are appropriate, however, I believe there could have been some replacement songs, rather than such a huge supply of classical pieces (not that there's anything wrong with supplying a few classical pieces). All in all, I was glad that it had multiple levels of progress inside the book. If I had any suggestions to the authors of this book w/ all of its arrangements, I would have used more songs in C Major (to gear the beginning student for the absolute beginning pieces). Don't get me wrong, I WOULD recommend this book for students / teachers.

This book was recommended by my daughter's piano teacher. She said it was good for a pianists repetoire. It is NOT all easy pieces. The pieces become progressively harder. My daughter is

enjoying this very much.

I ordered the plastic comb version of this book, assuming it would be easier to lay flat on the piano. However, there is something strange about this book. It appears to be a photocopy of the original book...and cites a different publisher. It also omits Amy Appleby's name. I'm not sure if this is a knock-off of the original or what.

A bit more rudimentary than I expected, but contains good "warm up" pieces. Had I realized it was geared to absolute beginners, I might have looked for a more challenging book.

Let me start by saying that my 3 stars isn't necessarily a reflection of the book, but of my impression. The pieces in this book were a lot more complicated than I thought children's music should be. That said, there are some wonderful songs in this book. They are definitely more appropriate for children a little older/more advanced in their piano playing skills. For the not so advanced...our solution was simple...my 8yr old daughter plays one clef while the other. We still get some great together time out of it, but she tends to get frustrated...it was just too soon for her.

I love this book. I had book 3 growing up and I loved it so when I saw this one I had to get it. I love both equally!
