Customer Reviews

Since this book was published in 2001, you might think that you are getting new pictures. Our family loves these pictures, but all of the photos can be found in other volumes. If you don't have any other books in the series, this is a wonderful copy, but if you have all of the others it is a waste of money.

I SPY YEAR ROUND CHALLENGER is filled with 12 pictures -- one for each month. Every puzzle is very different from the others. These clever photographs have beautiful colors but they're sometimes blurry or dark and hazy, and it's hard to see what's what. I wasn't always sure what I was looking for. I even believe there's a typo, making you look for one thing when it should be something else. In a couple of cases you can see only a tiny part of the thing you're supposed to find. And the extra credit riddles need to be on a foldout page so you can refer to them without flipping back and forth. Still, it's a beautiful, clever book and a lot of fun.

This says it is for kids from age 4 but I don't think that is quite right. The pictures are blurry and the items are not easy to find. They are quite challenging puzzles and I think the over 9 age group would be more likely to enjoy them.

Wonderful books for both adults and children. We are in our 70's and have actually used them during breakfast time to see who can find things first, also good entertainment for grand kids and visiting kids.

The I spy books are the most used books in my house. I run a day care and have lots of kids of all ages. From the 3 yr old to the 10 yr old they will all sit around together looking at these books and talking about them. The little ones ask the older ones what the words say. I highly recommend collecting this series of books for your home library.

My 9 y.o. daughter just can not get enough of these books. She was so excited to receive this for Christmas I thought she might burst. This was a definite success in gift giving history.

kids of all ages will appreciate this book. It continues to expand on a successful series and is a great mind exercise for children as well as adults. I caught myself looking at some of the puzzles from time to time.

I ordered this book for a Christmas gift. It was rec'd with a huge circle showing a reduced price. This "sticker" was not a part of the clear wrap around the book. It was actually a PART OF the book. Cannot use as a Christmas gift. Very disappointing.
