# Colorful File Folder Games, Grade 2: Skill-Building Center Activities For Language Arts And Math

## **Synopsis**

Make the most of your class time with colorful games that children can complete in centers or at their desks! It's easy to keep students on task with the fun, skill-building materials. This resource is comprised of 20 full-color games that can be assembled with ease; just glue the games onto file folders and cut apart the game cards. Colorful File Folder Games is the perfect tool for children who need a little extra help. Covering a variety of language arts and math skills, the games are idea for practicing phonemic awareness, letter-sound correspondence, alphabetization, counting, visual discrimination, money, telling time, place value, and pattern recognition. Children will enjoy playing these games over and over again!

## **Customer Reviews**

I got this file folder games book because next year I am teaching 2nd grade for the first time and thought it would be good to have some games for them ready. I like the games that were in the book. I also have this same version for first grade. It will be a great start for the year and has great skills that all students will need to learn and review.

I'm disappointed with this book so far. I mainly bought it for the math games, and was disappointed that the number combinations cannot be changed. It's a set number of combinations, but you

cannot make your own. Once you have 10 or so memorized, there is no use for the folder. This is coming from a homeschooling mom's perspective. It would have been nice to have had the ability to make our own combinations which would have made the game folder useful longer.

I got this book for Christmas and I am so pleased with it. The file folder games are easy to assemble, no coloring what so ever just some pasting after they are cut out. The pages are bright and colorful and I am very pleased with them!

This book is exactly what my SpEd students needed to help them with their skills. It is a great supplement to their learning!!

lots and lots of color. good diversity of content. Easy to pull out and put into file folders. My students will love these.
