Customer Reviews

I have been buying Froggy books for over 12 years. I gave my son's set to my neighbor and just bought him Froggy Goes to Hawaii and Froggy Goes to Camp. The stories are great, especially for boys. Most stories are written with girls in mind but Froggy is for both. The newer books are printed smaller than the originals, but the stories are great.

Wonderful Pictures and a Wonderful Story. Froggy and his family is getting ready to go on vacation to Hawaii. When mom wakes Froggie up he is having difficulty settling down. He is told to pack and reminded to pack his swimsuit. He packs his toy plane, boat and his ukelele into his bag and runs outside in his pajamas. Once dressed they head off to the airport where we see he is still hyper. He has difficulty waiting in line, waiting to get there and thinking what he is doing before he does it. Froggie and his family have a lot of adventure on their vacation. Read the book to see what type of

adventures he has. I read this book on the site "wegivebooks.org"

My toddler enjoys this book, and he likes to spell out some of the letters. The illustration is fine, too. We this bought for him as he asked for a surfing book. Compared to other children's books, I don't enjoy the authors writing style. Examples are, after causing some mischief the author declares Froggy's Dad too pooped to pop(???). The father, after Froggy acts out regularly declares, "Froggy, when we get to Hawaii..." To which, Froggy replies "I know." What, ground him, put him in time out... Worse??? Unknown. It's just a kids book, but there are better authors out there. After all, parents do have to read these things over and over.

My 4 year old nephew is in love with the froggy series they borrow froggy books from the library often, i decided i wanted to purchase some froggy books to add to his growing collection of books. Although the words and pictures are the same as the book they borrow from the library this book itself is smaller and flimsy. It was cheap so i cant complain and he loves the book either way. The only problem is that the words are stuck in my head! LOL

I liked the book, but it wasn't one of my favorite Froggy books. My grandkids still enjoyed it and liked to see the family in the Hawaiian Clothes and the beach area. It is still one that we need for our collection and of course will read it again. You never can go wrong with Froggy and how he makes the kids laugh.

Froggy is his irrepressible self in Hawaii and does all the tourist things: swim, visit a volcano and even does a hula dance. He really likes riding in the boat and swimming with the sea turtle. He wears his poor dad out on this vacation, who needs a vacation from Froggy so he can rest up. Children who like Froggy will enjoy his antics in Hawaii.

I love all of the Froggy books. They are always humorous and keep children's attention. The pictures are very colorful and vibrant. This book allows children to learn about some true facts and things you can do in Hawaii. From surfing to seeing a volcano, Froggy always seems to have a good time despite some misfortunes.

We live in Hawaii and my daughter loves Froggy, so, this book was a must. Froggy has another adventure and has a great time too. Great for a 2-3 year old who loves to be read to.
