Customer Reviews

My grandson is almost two years old. I purchased this book for his mother to read to him on an airline flight. It was amazing! He loved discovering everything behind the "doors". The airplane flight was quick, quiet and exciting for him thanks in part to his interest in his new book. Better still, he has enjoyed this book many many times since then. He likes opening the flaps and rediscovering the continuation of the story behind them. It has become a favorite for all of us.

this book is too cute!!! My Toddler girl LOVES it. she's all about girly stuff but so loves learning about machines and cars and equipment. This was perfect and she loves to look at every flap and talk about what it's about.

Love this book. So many flaps to open. Not great for a 1 year old because he just wants to rip the flaps off, but he'll love it once he gets older! An activity for each page, such as find all the shapes or look for pairs. A great learning book. I will buy the other ones!

I purchased this for my 2 year old nephew and he absolutely loves it! It is his favorite book! The flaps are sturdy and easy to pop out- only had 1 tear on one of the flaps that was a little too close to the binding but no problems with the others! Very well made and no other problems! He loves to read this book at least 2 or 3 times a day and lift every flap! Great purchase!

Greatest books!! We have almost all of these flip books for our 2 year old and he will just sit and look and point for at least a half hour each time. And that's a long time for a 2 year old! He hasn't even ripped any of the flaps off, very sturdy!

My toddler loves this book. He likes the pop up cut-outs and also the fact that each page has a lot going on. I do find the cardboard / material too be a bit weak and easily bendable. Otherwise, it's great.

It's good enough, but they've updated the drawing style and the illustrations aren't as bright as the farm themed book I bought my child a few years ago. My child begged for more of these books but he just hasn't gotten into this one as much because of the illustrations.

My 18 month old enjoys this book bc of all the flaps and vehicles. We use it primarily as an activity book vs a story book. After some use the book can get a little flimsy in that pages can bend backwards, etc. Overall great book with lots of activities for months to come.
