# Dinosaurs (Dover Coloring Books)

## Synopsis

A herd of prehistoric creatures comes to life on the pages of this exciting coloring book. Inside, you'll find 30 large pictures of the long-necked Apatosaurus and the mighty tyrannosaurus, as well as the ankylosaurus, stegosaurus, triceratops, parasaurolophus, and 24 other awesome reptiles.

Easy-to-read captions, along with the dinosaur's name and its phonetic spelling, accompany each picture. A great way to become acquainted with dinosaurs, this exciting book will also teach you new words while you're having fun coloring.

Age Range: 3 - 8 years

Grade Level: Preschool - 2

## Customer Reviews

This was an excellent coloring book. The pictures were the perfect size for my grandson to color and the text was written where he could comprehend what they wrote. My grandson is 2 and a half and loves dinosaurs...the explanations made sense to him and written in a way that was pleasant. I would recommend this book and wish I would have ordered two!!

The cover and pages are sturdy. The pages are a heavy weight crisp white. You can see a shadow of the print through the page. The dinosaurs inside are: Tyrannosaurus, Triceratops, Elasmosaurus, Stegosaurus, Camarasaurus, Archaeopteryx, Ankylosaurus, Deinonychus, Apatosaurus, Ichthyosaurus, Psittacosaurus, Parasaurolophus, Corythosaurus, Pteranodon,

Iguanodon, Oviraptor, Spinosaurus, Barosaurus, Protoceratops, Struthiomimus, Pachycephalosaurus, Styracosaurus, Lambeosaurus, and Maisaura. The names of the dinosaur are followed by a pronunciation guide and a short paragraph about the dinosaur.

This coloring book is high quality. The paper is tough (thick) enough to resist ripping, the paper is bright white, and unlike every other coloring book I've bought the black lines do not smear. Of course none of this matters to my eighteen month old as she just scribbles everywhere, but dad appreciates the quality :)

I live in Dallas, Texas and my daughter and two granddaughters (3 and 7 years old) from California are coming soon for a visit and we have planned a special trip to "DINOSAUR WORLD" in Glen Rose, Texas. It's about a 2 hour drive and I wanted them to have something to do in the car that was dinosaur related and that's when I found the DINOSAURS Coloring Book by Anna Pomaska on .com. They're perfect...not too young for the oldest and not too old for the youngest! The 7 year old will be able to pronounce all the dinosaurs names because Anna phoneticized spelled each dinosaur's name which will make it fun for her to read to her little sister. It should be a fun day with a pleasant drive and thanks to all of you that posted a review about the coloring books...it helped with my decision. Karen

Both my three-year-old (boy) and five-year-old (girl) enjoy this coloring book. They are fun pictures and the little descriptions about the dinosaurs are interesting.

Great coloring book for teaching about some species of dinos. I looked at multiple options before selecting this one because the text and detail in the drawings made this dino book the most appropriate for toddlers. However, parents will need to read the captions and especially the dino names for the littlest ones. I like how the text was realistic with meat eating animals and did not gloss that over, but also did shown dinos eating each other in the images. I suggest scanning the images into a computer so you can edit out portions to make the scene more focused on the animals for littlest ones. Information is more up-to date than expected. Brontosaurus was removed and its correct name of Apatosaurus listed. However, I do think in recent years some of these dinos species have been discovered to have feathers which are not in any drawings except for the Archaeopteryx. Here is what the book includes:- Tyrannosaurus- Triceratops (over 2 pages but can be used separately)- Reason why dinos need protective armor (2-page image)- Elasmosaurus-

Stegosaurus- Camarasaurus- Archaeopteryx- Ankylosaurus- Deinonychus- Apatosaurus (2-pager image)- Ichthyosaurus- Psittacosaurus- Parasaurolophus- Corythosaurus- Pteranodon- Iguanodon- Oviraptor- Spinosaurus- Barosaurus (2-page image)- Protoceratops- Struthiomimus- Pachycephalosaurus (2-page image)- Styracosaurus- Lambeosaurus- Maiasaura mom caring for babies in nest

This book has many great pictures that don't have a lot of small sections to color so it's easier for younger kids. Each page shows you how to pronounce the dinosaurs technical name and then shares a little fact about that type of dinosaur. The coloring book was delivered very quickly. If you know a child who loves dinosaurs, I'd highly suggest this coloring book!

My 3 year old loves this coloring book. We just bought a third copy because he has colored the whole thing through two times.
