This book follows the story line of Season 1, Episode 4, "Scraptors", where Ton-Ton is taken by Scraptors and the group must save him. Although my 3 year old LOVES this book (simply because it is about Dinotrux), I am very disappointed. The graphics are simply just screenshots from the show, which mean many of the pictures are way too dark and even blurry. I was also disappointed that for a level 1 reader, it didn't seem to have any flow whatsoever, it was more like 1 statement sentences repeated rather than sentences that flowed together. "Ty used his wrecking ball." "Rocks fell down." "Scraptors were trapped." It does have short simple sentences that are easy to read which is the point of passport to readings level 1 books, but I think they could have been written a little better. Even when my 3 year old recites the books he adds words to make it flow. "Ty used his wrecking ball and the rocks fell down. The Scraptors were trapped." etc. Either way, if you have a Dinotrux fan, your child will love the book, as a parent probably not so much.

This is a book version of one of the episodes (where Ton-ton gets held by Scraptors and they meet George). Very simple sentences. My son doesn't read yet so I can't attest to how well a child can read it but he loves the pictures, colors and that he knows the story already. And he loves that George. My only complaint is that you can't really tell what happens at the very end (in terms of who got out or what was happening) but I'm sure any kid who loves Dinotrux has already seen the episode and doesn't need to be told all the details.

My 4 yr old is obsessed with DinoTrux. This is one of the books the show is based on, and he wants to read it over and over again. This is one of the better books too. Easy read I, great story and bright illustrations

If you're getting this book and your child isn't quite familiar with the characters it could be tricky since the names wouldn't be familiar. As in, 'ScrapTors', since it isn't your everyday vocab word. these books always have a great story for youngsters and the with large font and plenty of photos it's easy to follow along.

My son love this love this book we read it just about every night and it makes it so easy for him to be able to turn the pages and read it himself will be purchasing other books similar to this in the future

I am a book nerd, and as my own children have eschewed timeless love of the page for the *bleep bleep* of electronic devices and 32-bit virtual block building (why does an eight-year-old need to know how to blow up a helpless sheep?), I am more than happy to share the love of reading with my nephews. I bought this for my nephew for his fourth birthday, and I have it on excellent authority* that he loves it.*My sister

Easy to read, very short text. The favorite characters we know from Netflix. Sadly the one female Dinotrux has no speaking role nor active role. Missing a great opportunity to inspire girls into STEM.

It is a great way to help kids to work together helping with each other in a fun way with what they love, dinosaurs! My son 5 love them, wants to read them every day
