I think this book is cute. It is only a couple pages, but it is a nice board type of book. I have the "ten tiny toes" book and I thought this would be similar. It is a bit different. The board pages are thicker (I do like the thinner pages of the "ten tiny toes" book, so I would have preferred that). I still liked it. I think it is for a small child, around a year. My son will look through it, but I don't think he will much longer.

I love Caroline Jayne Church books..I'm collecting them for my son who is almost one.He loves

them all and I love how they are large print/images and not too busy and distracting. This book includes texture on the dinosaur which is a great little touch!

I love Caroline Jayne Church books! I really wanted to love this one, but it was way too short! My son likes it well enough but definitely prefers her other books such as "I love you through and through" and "Good Night I love you".

Lovely book, perfect for two-year olds. We have many of Charlotte J Church books, all of them adorable. My kid enjoys everytime we pick one of hers for a bedtime story. It's a different kind of touch-and-feel book.

This is literally the cutest book I have ever seen. Each page has a different texture for the part of the dinosaur being described and my 1 year old thoroughly enjoys it, and I don't mind reading it over and over with him.

We love her books, this one is adorable. Different textures for little fingers are perfect! Very cute story.

This was a gift for my nephew, and my brother said he enjoys being read the book.

Cute little book. My daughter loves feeling the different things on the pages.
