Customer Reviews

We got our first national geographic sticker book as a gift and since then these have been a hit!! They are our new favorite item to bring on the airplane for our preschool age son! He absolutely loves putting in all the stickers -- provides hours of entertainment. Highly recommend!

My son and I really love doing these books together, it has become a ritual. It captures and keeps his attention- Which is saying alot for a super busy almost 6 year old. He just adores them and it's all he asks for on special occasions. A must have for any child who loves to learn and do activity books!

The pictures and graphics in this book are truly realistic. They talk about each dinosaur in a way

anyone, especially a child can understand. And all the activities that are included in the book make it a joy for a child. Mazes, coloring, stickers...it's everything they like plus learning. I love the National Geographic learning/sticker books! This is the second one I have purchased, and my six year old grandson loves them. We do two pages every night, and he learns so much. He loves dinosaurs, and he is learning about ones he has never heard of before. As a six year old, the more they learn the better. National Geographic Kids Dinos Sticker Activity Book: Over 1,000 Stickers! (NG Sticker Activity Books)

These are a perfect activity for a rainy afternoon. You can put the stickers together while talking about the included dinosaur facts, and then kids can color a little on their own. It's all kept very simple--with minimal text--and appealing to younger kids who are not yet readers.

This was one of my five-year-old's birthday presents and he loved it! I was easily able to tear out the sticker pages and cut the appropriate parts to go with the appropriate pages, he loved matching the stickers up and doing the mazes particularly!

National Geographic has done it again ~ and DINOSAURS! I love dinosaurs myself & I am so glad that I could share it with my sons, grandsons and nephews. This book is OUTSTANDING, awesome stickers & great activities.

It was a big hit with my nephew and niece!! I will be buying more of these type books for sure. they are 4 and 7 so big age range and both still loved it.

Awesome. My 3 year old loves dinosaurs & he loved this book.
