## Customer Reviews

I thought this would be a book that a young child could use. If you can't read musical notes, you won't be able to follow this book. I thought I was purchasing something similar to an EZ Play piano music book which has each note labeled so that a child can look at the note in the book and find the key (with labels on the keyboard). It is a very simple process that way. This was a waste of money and it isn't worth it to return it as I would have to pay shipping. I am very disappointed. I will look at the description more carefully next time.

I love this book. I was teaching myself to play the keyboard lol and I thought it would be fun for my twins and 2 year old as well. Well they got board. They kept asking for songs. I had no clue of any.

This book took care of that. Not only did they have songs to learn but they actually knew the songs. This book is perfect for the whole family.

It's okay. Gives basic info. All the songs I've never heard of and its hard teaching kids to play songs they've never heard of. The information it gives, I could have gotten for free on the Internet. not worth the purchase. I'm disappointed.

the note names are so small as to be unreadable. this was very disappointing as this was the specific reason i bought this book.

It didn't help me that much. I am older trying to learn by myself. So far, I havent been able to find anything. Maria

A very nice selection of easy to play tunes. Mostly Christmas music in the latter part of the book.

Great book and easy to follow but book was very creased. Very disappointed in UPS packaging.

I was expecting more from this book, but anyway the quality is good
