Customer Reviews

Not the best cursive series. The pages didn't engage my kids and were simply just writing the letters but not much variety. If someone gave it to me I would use it (if my kids would use it) but I wouldn't purchase it. The cursive book in the handwriting without tears series was much more engaging.

I like the style of cursive presented. This is a great introduction to cursive handwriting. Introduces similar letters at a time and then blends those letters together into easy words.

Very good. I wish it had direction arrows.
