## Customer Reviews

I bought this book because my 8 year old daughter wants to be a VET. She actually did enjoy the book but she also finished it in under 10 minutes. There is almost no text in the book it's mostly pictures with a sentence or two at most. This book reads a lot more like a free brochure you pick up at a kids fair rather than an \$8 book. For what you get I would say this book should be free.

This is an excellent book for anyone who dreams of being a veterinarian, like me. The book talks about all types of different veterinarians, such as holistic, large animal, small animal, and more. This is a great book and a must read for anyone interested in going into the veterinary field.

My daughter enjoyed this book (age 7). She wants to be a vet when she grows up. Informational

without being scary.

considering that i want to be a vet, i guess you could say that any book i read is "outstanding", but i really give this book nothing but loud cheers for the way it makes you almost "weak" i love animals so much and i always watch "Emergency Vets" on Animal Planet and i even volunteer at an animal hospital in La Jolla, Ca. i love being around animals, and my dream is to be a vet. i want to thank you for this outstanding book, i loved it!

This is a perfect book for any animal lover and future vet , like me.I learned a lot from this book. Very good book for vets.

Purchased this for my 9 year old niece and she loved it. It is rather on the short side, and it was difficult to find a vet book for kids that had more information and more pictures. That is my only complaint. I wish it was longer, had more pictures and much more information.

I purchased this book for my cousins son. On our last visit he stated that he wanted to become a vet. Well...this book has him dreaming about it more and more each day. Go get em Sean !

This looks great as a Christmas gift for my 9yo Granddaughter. Large print, many pictures. I scanned it and it looks enjoyable but it is up to her. I recommend it and this seller, would buy again , and I hope this helps.
