Customer Reviews

Solo, family, and party games quickly and easily learned. Explanations and illustrations are clear and simple. Anticipates problems for new learners, recommends playing strategies. I cracked this open with my son (age 7) and we ended up playing "Eights" for two hours. Can't get any better than that! Looking forward to playing many of the other 50 in the book.

My 4 year old son originally checked out this book from the local library. Every day he would request that we learn a new game. The book is filled with games for different ages and numbers of players

so we are able to play games alone or as a family (I also have a 7 year old son). We love to play games as a family and this has some great games for introducing your kids to cards and then it expands to more strategic games. I will note, however, that most of the instructions are listed in a page or two so it does not take long to learn a new game. This is a must for camping and also makes a great birthday gift.
