EDIBLES Calendar 2013

Synopsis

The beautiful EDIBLES 2013 calendar is once again a celebration of nature's bounty. This full color 12 inch x 12 inch wall calendar, published since 1978, features stunning photographs of fruits and vegetables. All the photographs are by award winning photographer Robert Kaufman. Kaufman has been photographing fruits and vegetables in their natural state as a vehicle to explore the shapes, textures and colors that nature offers us in these everyday foods. EDIBLES is the ideal calendar to hang in the kitchen. It not only inspires the cook but is a fine art photography calendar that dresses up any kitchen wall. The 2013 EDIBLES features a cover of blueberries that make you want to pick the berry off the page and pop it in your mouth. The sumptuous March image makes your mouth water for a delicious piece of cantaloupe. At the end of August you will not want to change the page because you will be so enamored with the cherries on the page. Each month offers a new and exciting image from grapes and chard to Brussels sprouts and cherimoya. Whether you are a foodie, health enthusiast or a fine art photography buff, EDIBLES has something for you. The calendar is printed on high quality paper with a lamination cover and the grid offers lots of room to write in important dates and appointments. For only \$13.99 you get a year's worth of fine art and visual treats.

Customer Reviews

Robert Kaufman's photography is simply stunning. I have bought this calendar for the last four years. It hangs in my kitchen and each month we are excited to flip the page and see what gorgeous food art awaits us. Each December I shop around to see if I can find a new calendar that I like as well only to come back to Edibles. I've never found a food photographer that I find quite as

interesting. Thanks for the gorgeous work!
