Customer Reviews

My 2.5 year old son loves this book! It is extremely basic and only has a short sentence on each page. So while extremely boring for parents, if your youngster is into tractors, they will probably love this book!

If you want to read a book to your child celebrating industrial agriculture, here you go. It celebrates a giant tractor ripping up the earth to grow carrots, all while celebrating a John Deere tractor. I just hope Deere & Company had to pay for this insidious marketing tool rather than actual getting licensing royalties.
