Customer Reviews

My grandson became "addicted" to Barefoot Books animations on YouTube, but our internet connection isn't the best (buffering.....), so I was very happy to find them here on included with the books. I ordered 4 of them. "Driving My Tractor", "Knick Knack Paddy Wack" and "The Animal Boogie". And this one. The previous 3 are wonderful, clear and easy to see, very colorful. This one has very little animation and the singing isn't as lively as in the other books. Grandson never requests this title. He LOVES the other 3.

My 2 1/2 year old loves this book and video - of course it's a catchy tune that everybody knows, but she likes the drawings and the movement in the video. I like that the "characters" are diverse and it is teaching my child about the rest of the world. We own this and the mulberry bush book, and will likely buy several more.

The illustrations are colorful children enjoy them. At least, my special ed students do. The song is sung in a lively way, capturing the students' attention. Parts of the song get dragged out but overall, this is fun and upbeat.

my secret weapon with my kids and transition times in my classroom- they love following the directions of the song

These books are so awesome! My kids in my classroom love all of them, this one is cool because it says hello in more than twenty different languages. live the cd that came with it

These barefoot books work wonders in my class. there is something soothing about these books that calms the kids. Recommend these books for all preschools!

The book is in great shape, but the CD was not included. I bought this for a one year old and the accompanying CD was the reason. Very disappointing.

I'm a teacher at an international school and I love this book. I especially like the greetings in numerous languages at the end. My kids love it because they recognize their home language represented in the song.
