Customer Reviews

My son enjoys this book and the fact it tells time. It was suppose to be in like new condition but came a little ripped on one of the pages and bit dirty but the owner refunded me and let me keep the book which was nice of him.

My son is 3 and a half, and I wanted to start teaching him how to read the clock. He is a big Thomas fan, so this was a perfect book to introduce him to telling the time. My son loves this book, and in the short time I have had it - he already looks at the clock on the wall and will say Mommy it's 7:00 o'clock !!!! He even enjoys the story, and illustrations.

My chap is a fan of Thomas, so this really help us teach him how to read the clock, which is pretty nice.

My 3yr old son is very interested in the clock but there's some slightly offensive text inside. A major character in the book is called "the Fat Controller". So yeah, I was surprised to see that on several pages. The book was published in Great Britain in 1992. ?
