Customer Reviews

I've lived 26 years on this earth. In those 26 years I've learned a lot about children's books. I've learned which ones are considered the holiest of holies and which are to be condemned and spat upon. So I was completely taken aback when I learned that there was a 1938 children's book that absolutely no one had ever told me to read before. "Mr. Popper's Penguins" was a delight to discover. Suddenly I was privy to reading a charming story of a man and his penguins, and I had never even heard a peep about this tale from anyone. What gives? Why isn't "Mr. Popper's Penguins" as well-known and well-read as "Cheaper by the Dozen" or "Stuart Little"? There is no answer to this question. There is only this wonderful book, well-illustrated and magnificently written for the younger set. Mr. Popper is a house painter, and mostly a good one. True, he does sometimes fall into fits of fancy, dreaming about the Arctic explorers and the ice floes to the North and South. His wife and children don't necessarily understand his dreams, but that doesn't sway Mr. Popper.

One day, out of the blue, he receives word that one of the great explorers he wrote, Admiral Drake, read his letter and is sending him a present. As any child who remembers the title of the book might guess, a penguin comes hopping out of a newly delivered crate the next day. Mr. Popper is charmed by the little guest, and names him Captain Cook. Cook is a curious beast, and the Poppers do everything from outfitting their refrigerator to taking Captain Cook for walks. When the penguin falls into a deep depression it is only the delivery of a second penguin from the zoo, Gerta, that cheers him up. Soon the penguin pair lay some eggs and the Popper household is privy to ten more lovely jumpy penguins.
