Customer Reviews

I had this another copy of this book once and lost it so I got another. Love the projects in this book for my 4 and 5 year old Sunday school students! Some have become standard favorites we do each year!

The book arrived before expected and in great condition. I teach 4 to 8 year olds in a wednesday night church class and these are simple and inexpensive crafts for them to make. The kids love the

crafts and I love the simplicity.

Often with a craft book like this I will get it at the library and want to make copies of 4 or 5 of the projects. With this book, to get all the projects I liked and could see myself doing, I would have to photocopy half or more of its 64 pages. The projects are straightforward and use only basic craft supplies. Patterns are included that are already the correct size to be used with the paper plates. Thematically they cover a spectrum of Sunday school topics and are arranged by season. This would be a great book for Sunday school teachers as well as parents who like to do crafts with their children at home. I have a 4-year-old and it does seem to me that some of the crafts in here might not be enjoyed as much by children in the upper range of the 4-10 year ages suggested.

I have had this book in years past and was happy to find it again. The crafts inside are great finished projects.

The kids loved these crafts.
