## **Customer Reviews**

This has simple language and is appropriate for my K classroom. However, many students, when writing reflections in their journals, said "The president builds houses." So you might want to talk about each one more.

I bought this book to read to my three-year-old on President's Day. It's a good book for introducing the very basic concept to a toddler. By first grade or so I would expect a child to be ready to delve more into the subject, including how there are different countries and different leadership types. Those subjects are not explored in this book.

Happy librarian - needed book found here! Hope the teachers and students are happy with them, too! The only downside is that I must catalogue them myself, but it is worth the time and effort to be able to get materials not available elsewhere at these prices!

A simple way to explain to preschoolers about President's Day and what is a President. A good way to start open ended question with the children.

Pictures are great. Kids enjoyed the text. Great addition to our classroom library. Would buy from the seller again if had the chance.

It was ok. Wish it would have given a little more information about what a president does.

Used this in my classroom was great and kids really liked it.
