This book and books like this are so great for children who are curious, bored, or just needing something interesting to read. I especially like this one because it is a lot of fun. For years when I worked at school, I used lots of this type of material with the scholars' bowl kids and found them to be very good. Quiz Whiz 6 is one of the best. I am planning on keeping it with me during the holidays as we travel with our grandchildren. It's fun just to pick up and read a page or two when you have a few minutes. It is also nice to spend time with this book. We like it a lot.

What a great Christmas gift for my 7 year old granddaughter...we really enjoyed reading the "Mind-Bending, Totally Awesome Trivia Questions" to each other...much laughter while learning new things. Now I know one of the reasons why kids these days are so much smarter than I was.

Really fun book with lots of facts in it. Our kids love asking the questions and seeing who knows the answer in the house. Educational and fun which is a win all around.

The book is really great but the answers are printed unbelievably small needing a magnifying glass to read them, especially the ones printed on dark blue paper.

I enjoy reading the questions in this book and sharing them with my grandchildre.
